

Spanish Fork High School Zoology/Botany

I CAN Target Standards

Unit 1- I can explore and define life characteristics.

Unit 2- I can classify and scientific name any life form.

Unit 3- I can explain and identify the different time periods on a geological time scale.

Unit 4- I can compare animals by strategies of survival.

Unit 5- I can identify single celled animals and describe their characteristics.

Unit 6- I can identify and classify simple invertebrates.

A- I can describe the characteristics and body plan of Phylum Porifera .

B- I can describe the characteristics and body plan of Phylum Platyhelminthes.

C- I can describe the characteristics and body plan of Phylum Nematoda.

Unit 7- I can identify and classify complex invertebrates.

A- I can describe the characteristics and body plan of Phylum Mollusca.

B- I can describe the characteristics and body plan of Phylum Annelidae.

C- I can describe the characteristics and body plan of Phylum Arthropoda.

D- I can describe the characteristics and body plan of Phylum Echinodermata.

Unit 8- I can identify and classify vertebrate animals

A- I can describe the characteristics and body plans of the 3 classes of fishes.

B- I can describe the characteristics and body plans of the 3 classes of amphibians.

C- I can describe the characteristics and body plan of class Reptilian.

D- I can describe the characteristics and body plan of class Aves.

E- I can describe the characteristics and body plan of class Mammalia.
