

Summary of Spanish Fork High's TSSA Plan:

For the 2022-2023 school year, SFHS has two goals that we are focusing on. The goals are:

- Goal #1 The percentage of students performing on grade level or making progress on end of level assessments will increase in language arts/reading, math, science, and other subjects.
 - Measurement: ACT scores, Utah Aspire Plus Scores, AP scores, CE scores, CTE scores, Framework scores.
- Goal #2 SFHS will increase our inclusivity opportunities by focusing on differentiation and diversity.
 - Measurement: Number of students in the Latinos in Action Class, and our ESL class will increase.

We are also using our TSSA funds to help us achieve these goals. Our TSSA money will be used to do the following:

- 2.5 FTE to reduce class size in Math, Science, and English (*Approximately \$150,000*)
- Purchase Chromebooks to maintain 1 to 1 (*Approximately \$38,086*)

We believe that using funds to lower class sizes will increase each student's opportunity to be successful and grow academically. Many studies show that greater amounts of learning may happen with lower class sizes. Purchasing Chromebooks ensures that each one of our students has a device to carry out our 1-1 initiative. Each one of our students is provided a Chromebook to use for school work throughout the entire year. Both of these action items provide more opportunities for our students to receive help and support with their assessment needs.
